

**Extraordinary USI.  
Extraordinary Performances.**

## **■\_Chronotech**

The highest expression of **USI Italia technology**,  
the ideal solution for those who are looking for:

# Fittings

**Three exclusive fittings:**  
all of them with DGTouch technology  
and remote assistance via Internet

**Supremacy** 12' DGTouch

**Elite** 12' DGTouch

**Dynamic** 7' DGTouch LITE

**VFD's** on intake and exhaust motor for air speed variation

**Intermediate baking** (a.k.a hot flash-off) very useful for water born paints

Working phases with **customizable air volumes**

**Curing Phase** with variable times and temperatures

**Automatic** and **independent** pressure regulation

**Inverter's automatic reset** after filters changing without operator human intervention

**Progressive linear motor start** to reduce the absorption peaks

**Online software update** through USB or Internet

**Warm-up function:** energy saving mode for preliminary operations prior to painting

**Internet** after sales support

Setting and Storage of **multiple working profiles**

**Display** with indications of end customers language

**COST REPORT** function that allows directly from the touchscreen to view the consumption and cycle times of the last order executed

**Maintenance** register and **alarms** register

**Eco dynamic damper** to not stop the motors during the transition from exhaust and recirculation phase

**Triple step Perfect cure** for a wiser balancing of temperature and air volume during the curing phase

**Stand-by** device for automatic slowing down of the motors in case of temporary non-use of the spray gun

**Humidity sensor** probe

**EPS 2.0** (Easy Paint System)

**DGT Manager 4.0**

Extraordinary USI. Extraordinary Innovations.
